## **MSD offers free Louisville Green fertilizer — reservations required**

LOUISVILLE, KY—Louisville Green is an earth-friendly, soil-enhancing fertilizer that is ideal for many land applications from farms to lawns, landscapes and gardens. The fertilizer is produced at MSD's Morris Forman Water Quality Treatment Center.

MSD is now offering Louisville Green free to residents of Kentucky or Indiana. You must be able to receive the bulk product with a minimum order of 15 tons and provide acceptable transportation.

### **Make a reservation by December 15, 2017, to receive product through January 31, 2018**

Effective December 18, 2017, you must make a reservation to obtain Louisville Green. Interested parties should email [pellets@louisvillemsd.org](mailto:pellets@louisvillemsd.org) by December 15, 2017. The product will be offered through January 31, 2018.

Please provide the following information in your email:

- Name
- Phone number
- Mailing address
- Email address for all correspondence
- Anticipated quantity of Louisville Green

MSD will respond to all emails with a reservation date(s) for pickup. Vehicle must not exceed 12 feet six inches in height, and not allow any leakage of the product. Individuals must comply with Louisville Green Best Management Practices, which are available at [LouisvilleGreen.com](http://LouisvilleGreen.com) under Technical Info and will be provided upon arrival to the facility.

### **Louisville Green is available for pickup at:**

MSD Morris Forman Water Quality Treatment Center  
4522 Algonquin Parkway, Louisville, KY 40211  
Monday through Friday, 7 AM to 4 PM

Since 2008, the National Biosolids Partnership, through third-party auditing companies, has certified MSD's solids processing and the Louisville Green Management System as meeting requirements for "exceptional quality" product.

For questions concerning availability call 502.540.6774. For other product information visit [LouisvilleGreen.com](http://LouisvilleGreen.com).

### **About MSD**

The Louisville/Jefferson County Metropolitan Sewer District (MSD) works to achieve and maintain clean, environmentally safe waterways for a healthy and vibrant community. The organization's more than 600 employees provide wastewater management, drainage and flood protection services across the 376 square miles of Louisville Metro. In addition to operating and maintaining Louisville Metro's sewer system, floodwall system, water quality treatment centers and flood pumping stations, MSD invests in hundreds of infrastructure improvement projects each year, plants more than 1,000 trees and other vegetation annually to enhance water filtration and reduce runoff, and provides numerous outreach programs to inform and educate the community about protecting our waterways.
