## **MSD TO INSTALL FLOODWALL CLOSURE ON DIXIE HIGHWAY AT KOSMOSDALE**

On Saturday, October 1st, MSD crews will be installing the Floodwall Closure on Dixie Highway at Kosmosdale as part of our federally mandated maintenance of the Louisville and Jefferson County Flood Protection System. The closure being installed is located at mile marker 3 on Dixie Highway (US31-W), just south of Depot Lane in the Southwestern portion of Jefferson County.

Beginning at 6:30 a.m. on Saturday, October 1st, installation of the closure will take place with one half of Dixie Highway closed to traffic throughout the process. During installation, there will only be one lane open in each direction. Traffic control and flaggers will be present for public safety. Work is scheduled to be completed by 8:00 p.m. that evening.

### **About MSD**

The Louisville/Jefferson County Metropolitan Sewer District (MSD) works to achieve and maintain clean, environmentally safe waterways for a healthy and vibrant community. The organization's more than 600 employees provide wastewater management, drainage and flood protection services across the 376 square miles of Louisville Metro. In addition to operating and maintaining Louisville Metro's sewer system, floodwall system, water quality treatment centers and flood pumping stations, MSD invests in hundreds of infrastructure improvement projects each year, plants more than 1,000 trees and other vegetation annually to enhance water filtration and reduce runoff, and provides numerous outreach programs to inform and educate the community about protecting our waterways.
