
Louisville Green Management System Policy Statement

Revision Date: 11-14-2020

Revision Number: 013

Approved by: *Robin Burch*

Odor Control and Biosolids Manager

MSD's Board formally revised the following Biosolids Management Policy on October 26, 2020. The policy establishes the guiding principles for the LGMS.

Louisville Green Management System Policy Statement

MSD will produce Exceptional Quality Biosolids and promote beneficial use.

Exceptional Quality (EQ) – The highest classification for a Biosolids product in accordance with Federal EPA 503 regulations. EQ Biosolids are exempt from the Part 503 Land Application general requirements, management practices and site restrictions.

MSD will implement this policy by:

Following the Code of Good Practice for Biosolids developed by the National Biosolids Partnership.

Periodically evaluating beneficial reuse options that provide potential for improved efficiencies or better meet the needs of the community; and

Providing adequate training opportunities to personnel associated with the LGMS.
