Sewer line repair on Story Avenue at base of I-64 ramp complete Additional repair needed at Story and Frankfort avenues

LOUISVILLE, KY – The I-64 eastbound exit ramp on Story Avenue is now open to traffic. The sewer line inspection and work at the base of the ramp are complete.

Crews now move to inspect a similar depression or dip in the pavement on Story Avenue at the intersection with Frankfort Avenue.

Portions of Story and Frankfort avenues including I-64 westbound ramp access close to traffic

The second repair requires the closure of Story Avenue between Frankfort Avenue and I-64. There is no access to the I-64 westbound entrance ramp during this repair. Additionally, Frankfort Avenue will close between Mellwood Avenue and Story Avenue. See Attached diagrams.

There is no disruption of the sewer or other utility service in the area. Detours are marked.

Background

MSD maintains more than 3,300 miles of sewer lines – enough to stretch from California to Maine, and many dating back 75 years or more.

About MSD

The Louisville/Jefferson County Metropolitan Sewer District (MSD) works to achieve and maintain clean, environmentally safe waterways for a healthy and vibrant community. The organization's more than 670 employees provide wastewater management, drainage and flood protection services across the 376 square miles of Louisville Metro, and wastewater service in portions of Oldham County. In addition to operating and maintaining Louisville Metro's sewer system, floodwall system, water quality treatment centers and flood pumping stations, MSD invests in hundreds of infrastructure improvement projects each year, plants more than 1,000 trees and other vegetation annually to enhance water filtration and reduce runoff, and provides numerous outreach programs to inform and educate the community about protecting our waterways.
